January 3, 2022

The information contained in this document is intended to communicate a summary of information about measures in Step 2 of the *Roadmap to Reopen*. Please refer to [O. Reg. 263/20 Rules for Areas in Step 2](#) for the complete list of measures and conditions that apply to certain businesses, organizations, places and individuals. The material is not legal advice and does not purport to be or to provide an interpretation of the law. In the event of any conflict or difference between this summary information and any applicable legislation or regulation, the legislation or regulation prevails.

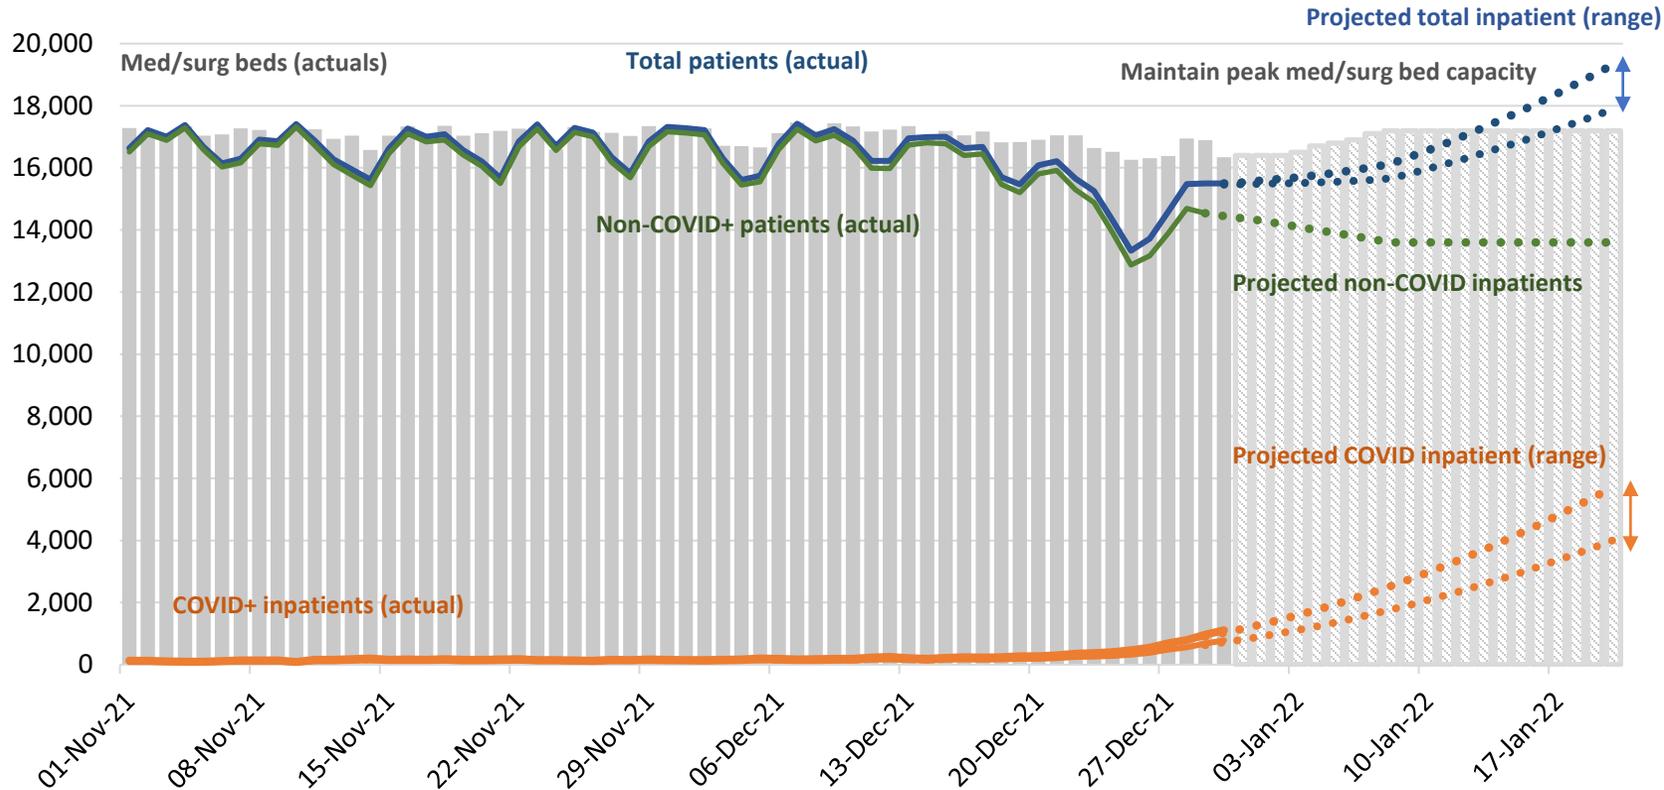

# The Imperative to Act

Even with a lower hospitalization rate of Omicron compared with Delta it is expected the higher number of cases will result in more short-term hospital admissions and overtake hospital capacity.

**Conservative projections based on current growth in COVID-19 hospitalizations shows acute care capacity overwhelmed in January even with an application of measures.** This shortage could be compounded by increased absenteeism of health human resources.

Projected COVID and non-COVID acute med/surg inpatients vs. med/surg bed capacity

Non-COVID patient census ramps down to a Wave 3 post-Directive 2 level

- Projected COVID-19-related admissions are expected to result in capacity being overwhelmed.
- Modelling shows this may be blunted with the application additional public health measures like those in the third wave of the pandemic.

# CONTEXT | Modified Step Two of the Roadmap to Reopen

## *Timing*

- The measures will come into effect at **12:01 a.m. on Wednesday, January 5, 2022.**

## *Duration*

- The public health and workplace safety measures are proposed to be **implemented for 21 days (until January 26, 2022), subject to trends in public health and health system indicators.**

The following slides provide an overview of the public health and workplace safety measures in modified Step 2.

# Expanding Rebates for Property Tax and Energy Costs

- To support businesses that are most impacted by provincial public health measures, the government is expanding the new Ontario Business Costs Rebate Program (OBCRP).
- The new OBCRP program will support eligible businesses that are required to close or reduce capacity due to recently announced public health measures.
- Eligible businesses will receive rebate payments for a portion of the property tax and energy costs they incur while subject to capacity limits. The rebate amount will be 50 per cent up to 100 per cent of these costs depending on the degree to which the business is subject to public health restrictions.
  - Eligible businesses required to reduce capacity to 50 per cent, such as smaller retail stores, will receive a rebate payment equivalent to 50 per cent of their property tax and energy costs.
  - Eligible businesses required to close for indoor activities, such as restaurants and gyms, will receive a rebate payment equivalent to 100 per cent of their costs.

**The Ontario Business Costs Rebate Program was [announced](#) on December 22, 2021. Under the program, eligible businesses were to receive rebate payments equivalent to 50 per cent of the property tax and energy costs they incur while subject to the capacity limits at the time.**

# Overview of the Ontario Business Costs Rebate Program

## Eligibility

- A full list of eligible business types will be made available in mid-January 2022.

## Applications Process

- Online applications for this program will open in mid-January 2022, with payments to eligible businesses provided retroactive to December 19, 2021.
- Businesses will be required to submit documentation including property tax and energy bills as part of the application process.

# Cash-flow Supports for Businesses Through Tax Deferrals

## Six-month Interest- and Penalty-free Period

- Effective January 1, 2022, the province is also providing additional support to help improve cash flows for Ontario businesses by providing a six-month interest- and penalty-free period to make payments for most provincially administered taxes.
- This measure will provide up to \$7.5 billion in relief to help approximately 80,000 Ontario businesses. This will support businesses now, while capacity and operating restrictions are in place, and provide the flexibility Ontario businesses will need for long-term planning.
